

# BRAIN CIRCUIT

Monthly brain-related updates for the UCI community

Dear colleagues,

Many brain-related events have been postponed as we transition to a remote learning and working environment. As you know, much of our community's research has been put on hold during this unprecedented time. While we adjust to the new remote environment, we would like to share some resources to support your research.

Also, to foster community during this time, we will increase social media presence. Follow us, tag us, or use #ucibrain to begin a conversation.

It is important to remember that we will get through this. We will connect, collaborate, and make world-changing discoveries again soon. Stay healthy and safe.

Sincerely,

**[Michael A. Yassa Ph.D.](#)**

Director, UCI Brain Initiative

## Resources Available

[Dimensions Virtual Training Session](#) [UCI Brain Initiative](#)

**April 16, 2020**

**9:00 am - 12:30 pm**

After careful consideration, the UCI Brain Initiative has decided to offer their Dimensions Training Session via a virtual format. An in-person option will be available in the fall. These training sessions are designed to help users better understand the interface, the capabilities, and opportunities in Dimensions. Participants are encouraged to [apply for Dimensions access](#) prior to attending the training session. [Learn More](#)

## Premium Access to Dimensions for COVID-19 Research

This year, the UCI Brain Initiative launched their [Dimensions Team Science Portal](#) to help support interdisciplinary brain research at UCI. During this unprecedented time, Dimensions and the Initiative would like to extend access to this platform to those facilitating solutions to the COVID-19 crisis. There are two options available:

- **Updated daily: COVID-19 Data Export File** – This file will give researchers access to the latest publications, clinical trials, and datasets on COVID-19. Available in [Google Sheet](#) and as a [CSV file](#).
- **Premium Dimensions Access** – UCI Brain would like to offer COVID-19 researchers who need information beyond the datasets above premium access to the Dimensions platform. [Fill out this form to request access](#).

Visit [brain.uci.edu/covid19](https://brain.uci.edu/covid19) for an updated list of resources

# New Positions

The UCI Brain community is expanding. Below are a few of the open positions at UCI. [Visit our website](#) to view all positions and to submit your open position for inclusion on our website.

---

## Faculty Position:

### [2020-2021 Psychological Science Lecturer](#)

Department of Psychological Science

Final Date: February 17th, 2021

### [Clinical Psychology Associate or Full Professor](#)

Department of Cognitive Sciences

Final Date: Mar 31st, 2020

## Postdoctoral Fellows / Project Scientists Positions:

### [Postdoctoral Scholar - Metabolic Change in Alzheimer's Neurons](#)

Department of Biomedical Engineering

Final Date: June 30th, 2020

### [Postdoctoral Neuroscience/Epilepsy Research Positions](#)

Department of Anatomy & Neurobiology

Final Date: June 30th, 2020

## Research Staff Positions:

### [Study Coordinator in Sleep and Cognition Lab](#)

Department of Cognitive Sciences

Open

### [Specialist Series – Neurocircuitry in Adolescents](#)

Department of Psychiatry & Human Behavior

Final Date: June 30th, 2020
